

# Stefanos Georgiou

---

*On profession:* Passionated with coding, performing research studies, and learning new technologies. *On spare-time:* Enjoying Working out, sporting, and going crazy for travelling and eating.

---

## Education

- 2016-2019 (expected)**      **PhD, Management Science and Technologi**; Athens University of Economics and Business  
*Thesis title: Energy and Performance Implications for Software Development Practices*
- 2013-2015**      **MSc, Pervasive Computing and Communications for Sustainable Development (PERCCOM)**; Erasmus Mundus Joint Master Degree  
ITMO University of Saint-Petersburg (Russia) *Thesis title: Implementating Green IT approach for transferring Big Data over Parallel Data Links*  
Lulea University of Technology (Sweden) *Semester 3: Resource Efficient Pervasive Computing Systems and Communications*  
Lappeenranta University of Technology (Finland) *Semester 2: Smart Software and Services*  
Unversity of Lorraine (France) *Semester 1: Sustainable Computer Network Engineering*
- 2013-2008**      **BSc, Networks and Systems Programming**; University of Cyprus
- Thesis title: \*

## Experience

### Teaching and tutoring:

Assisting my PhD advisor at Programming II course (Winter Semester of 2017 and 2018). Main responsibilities are giving tutorial and Lab sessions, guiding students on team assignments and preparing presentations. Secondary, providing lectures and tutorial sessions for BootCamp (Oct. 2017 - May 2018)

## Technical Experience

### My Cool Side Project

For items which don't have a clear time ordering, a definition list can be used to have named items.

- These items can also contain lists, but you need to mind the indentation levels in the markdown source.
- Second item.

<b>Open Source</b>	List open source contributions here, perhaps placing emphasis on the project names, for example the <b>Linux Kernel</b> , where you implemented multithreading over a long weekend, or <b>node.js</b> (with <a href="#">link</a> ) which was actually totally your idea...
<b>Programming Languages</b>	<p><b>first-lang:</b> Here, we have an itemization, where we only want to add descriptions to the first few items, but still want to mention some others together at the end. A format that works well here is a description list where the first few items have their first word emphasized, and the last item contains the final few emphasized terms. Notice the reasonably nice page break in the pdf version, which wouldn't happen if we generated the pdf via html.</p> <p><b>second-lang:</b> Description of your experience with second-lang, perhaps again including a <a href="#">link</a>, this time placing the url reference elsewhere in the document to reduce clutter (see source file).</p> <p><b>obscure-but-impressive-lang:</b> We both know this one's pushing it.</p> <p>Basic knowledge of <b>C</b>, <b>x86 assembly</b>, <b>forth</b>, <b>Common Lisp</b></p>

## Languages and living abroad

- Human Languages:
  - Greek/Hungarian (native speaker)
  - English (fluent speaker)
  - Russian/ France (Basic knowledge)
- Staying Abroad:
  - Born in Gyula, Hungary but grown up in Nicosia, Cyprus.
  - Lived in Lorraine, France and eating baguette (Winter Semester of 2013)
  - Had many sauna sessions in Lappeenranta, Finland (Summer Semester of 2014)
  - Learned how to fish from ice-lake in Lulea, Sweden (Winter Semester of 2014)
  - Learned how to drink a proper dose of vodka in Saint-Petersburg, Russia (Summer Semester of 2015)
  - Enjoying feta and the beauty of Greek islands in Athens, Greece (from Winter Semester of 2016 till now)
